On Sept 1st we start sending in our Alpha DDS Reports by FAX instead of dictating on the phone. The ultimate goal is to make the report process as simple and error free as possible, both on our end and for the Transcription personnel. We will be moving towards making the whole process an electronic process by sending the report by e-mail at a future date -- Jan 2012. This will require new software and hardware on our end.

The new HOA maps you've seen on the table in the FOD room are now on the web site. You can either read or download the set for your use. If you see any mistakes in the maps, please let Mike Herndon know.
